And the sun is shining on the hills, on the hills
E C#m B A
Where once the cold and bitter frost it froze all life away

B A B A B A
Oh I need You, Lord I want You, Lord I open my heart to You

These empty dreams that we chase for, what are they for

I long for us to know our Father's waiting, He's waiting for us
B A B A B A
Oh I need You, Lord I want You, Lord I open my heart to You

These bitter cords that hold me tight I let them go to You
